

# Self-Propelled Telescopic Booms

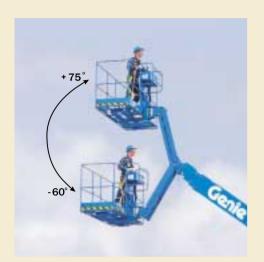

More of what
you need to
get the tough
jobs done.

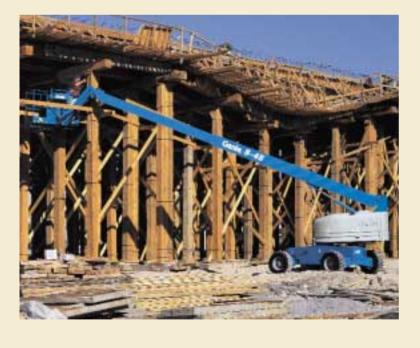

## We give you features you won't find on other stick booms.

Genie's S-40 and S-45 feature faster lift speeds, more powerful engine options, and low-profile chassis covers offering the industry more of what it needs to get the job done. Choose the Genie S-40 boom, with 14 m (46 ft) of working height, or the S-45, with an additional 1.52 m (5 ft) articulating jib boom. Customise your boom with many option packages.

### S-45 Out-and-Up Articulating Jib Boom

This special option gives you an additional 1.52 m (5 ft) of horizontal reach for a total of 11.2 m (36 ft 8 in). The S-45 jib boom gives you flexibility too – 135° of working range. You not only access 75° above horizontal, but you can get to 60° below horizontal.

### **Standard Features**

### **Proportional Controls**

Allow smooth operation and easy positioning.

#### 160° Hydraulic Platform Rotator

Gives you precise placement without repositioning the boom.

### **Easily Accessible Components**

The swing-out engine tray and easy-to-understand electrical system simplify routine maintenance.

#### **Positive Traction Drive**

Full-time positive traction system on both 4x2 and 4x4 models.

### **Drive Enable System**

Informs operator when the drive and steer functions will move opposite the controller movements.

### Low-Profile Chassis Covers

Provide high visibility for the operator while unit is in stowed position.

### **Platform Controls**

Large, simple to use controls for easy operation.

### Transportability

The S-40 and S-45 are designed to load and unload easily from transport vehicles.

### Increased Lift Speed

The capability to operate multiple functions simultaneously results in maximum lift speed. The S-40 elevates from the ground to full height in just 40 seconds.

#### **Powerful Engine**

The Ford LRG 425 Electronic Fuel Injection Gas/LPG 61 kw (82 hp) engine is more powerful with enhanced performance in high altitude and cold weather environments. The fuel-injection system requires less service than carburetor systems.

### Terrain Tracking Active Oscillation System

This revolutionary system automatically senses the terrain and adjusts the axle position based on ground conditions. The oscillating axle allows you to drive on uneven ground with the turntable rotated up to  $90^{\circ}$ . It provides an amazingly smooth ride even when the platform is raised.

### **Loegering Tracking Systems**

Loegering offers two specially designed tracking systems for the S-40 and S-45. The tracks, available in both rugged steel and soft-bottom urethane, along with a wheel and idler system, give the lifts more traction and floatation in adverse conditions. The tracks attach quickly and easily with a customized intallation tool. After initial intallation, the drive-on design allows reinstallation in less than 30 minutes. The tracks are fully adjustable and rebuildable, making them the ultimate value.

### Easily customised to meet your needs:

### **Engine Options**

Ford LRG 425 EFI
Gas/LPG 61 kw (82 hp)
Deutz Diesel 42 kw (56 hp)
Deutz Diesel 27 kw (36 hp)
Perkins Diesel 45 kw (60 hp)

### **Platform Options**

Standard: Steel 1.83 m (6 ft) Optional: Steel 2.44 m (8 ft)

### **Drive Options**

4x2 – two wheel drive gradeability up to 30% 4x4 – four wheel drive gradeability up to 40%

### **Axle Options**

Oscillating axle
Non-oscillating axle

### Tyre Options

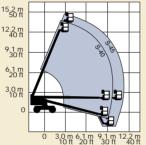

Rough terrain, air or foam filled. Rough terrain non-marking (4x4 only) High floatation turf tyre (4x4 only)

### Standard Features

- S-40 has 14 m (46 ft) working height
- S-45 has 15.5 m (51 ft) working height
- S-40 has 9.7 m (31 ft 8 in) horizontal reach
- S-45 has 11.2 m (36 ft 8 in) horizontal reach
- 227 kg (500 lb) lift capacity
- Oscillating axle system on 4x4 models
- Dual fuel (Gas/LPG) or diesel engine options
- Fully proportional platform controls with ramp up/down feature
- Hydraulic platform rotation
- 360° continuous turntable rotation
- 12V DC auxiliary power
- Fuel select switch on platform and ground control panels (Gas/LPG models)
- Closed-loop hydrostatic drive
- Hydraulic oil cooler
- Positive traction drive
- Drive enable system
- Self-levelling platform
- Locking turntable covers
- Anti-restart engine protection
- Auto engine fault shutdown
- AC wiring to platform
- Wire braided hose
- Tilt alarm
- Horn
- Hour meter

### Range of Motion

### **Options and Accessories**

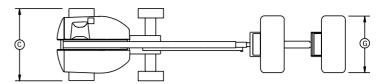

- Alarm package
- Cold start packages
- 2500 or 3000 watt AC generator
- 2.44 m (8 ft) steel platformTow package
- Platform swing gate
- Air line to platform
- Platform rail pinch guard
- Platform work lights
- Lockable platform control box cover
- Tool tray
- Fluorescent tube caddy
- Hostile environment packages

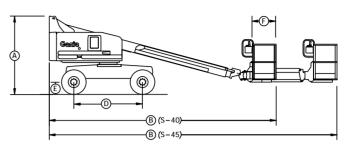

### **Standards Compliance**

- ANSI/SIA A92.5
- CAN3-B354.4-M82
- CE
- AS 1418.10

- Additional LPG tank
- GS/LPS rating for Ford engine powered machines
- Foam-filled tyres
- Driving lights
- Weld lead to platform
- Spark arrester (Ford and Deutz)
- Scrubber/spark arrester (Deutz)
